

Lloyd's List

Draffin writes again

Thursday 2 June 2011

IF HE was not satisfied with reaching the dizzy heights of vice-president of the International Bunkering Industry Association – he was a founder member, after all — Nigel Draffin has found time to put pen to paper and produce his fourth book on all things bunkering.

According to his publishers Petrosport, *Commercial Practice in Bunkering* “is a valuable source of information and guidance on the process and methods of buying and selling bunker fuels”.

And who would doubt it? Indeed, Draffin seems to be single-handedly building a veritable bunkering library. Other titles from the industrious author include *An Introduction to Bunkering*, *An Introduction to Fuel Analysis* and *An Introduction to Bunker Operations* all from the same publisher.

Draffin is a member of the Institute of Marine Engineering Science and Technology and past master of the Worshipful Company of Fuellers.
