The Marine Energy Transition Forum
17-18 OCTOBER 2023
The Port House, Antwerp

MAKING CONNECTIONS: Partnerships as drivers for shipping’s energy transition

#METF23
MAKING CONNECTIONS: Partnerships as drivers for shipping’s energy transition

The METF agenda will feature input from shipowners, charterers, cargo owners, fuel suppliers, technology providers, ports, regulators and legislators, and industry associations who will discuss their experience of collaboration on the energy transition.

Partnerships are seen as key to fostering and accelerating progress on maritime decarbonisation in order to meet IMO timelines. At METF, delegates will hear whether the partnership ‘model’ is working at the R&D level and also when projects are scaled up for commercialisation. Access to finance to support the lifecycle of capital-intensive initiatives will also be central to the discussions in Antwerp this year.

As always, the METF programme will be project-based, with an emphasis on the decarbonisation choices facing mid-sized and smaller maritime companies as well as the industry’s larger first movers.
LAST EVENT IN NUMBERS

70+ DELEGATES
25+ EXPERT SPEAKERS
60+ COMPANIES

PRICING

ENDRESS+HAUSER TRAINING COURSE

£80

- Endress + Hauser Mass Flow Technology Course
- Endress+Hauser is a leading supplier of Bunker Metering Systems (BMS) based on Mass Flow Meter (MFM) Technology. With the growing interest in these systems, it is important for everyone to understand how it works and why they add so much value to the industry.

In this Bunker Metering Course, you will learn:
- What a BMS is and how it works
- How a BMS benefits the bunker barge, the receiving vessel, the Port Authorities and the industry as a whole
- The Components of a BMS and how they contribute to a trustful measurement of the bunker quantity delivered
- Certifying a BMS: International and national legislations, procedures, re-verification
- Basic details on installation, maintenance and troubleshooting
- Capabilities of Endress+Hauser in the bunker space.

DELEGATE PASS
